Caterpillar | EHS Assurance Manual

Caterpillars are the juvenile life stage of butterflies and moths -- they don't mate or reproduce. While most are genetically either male or female, their reproductive organs don't develop until they're pupae, transforming into adults. However, you can make a good guess at the sex of a few species depending on the translucency of their skin and ...

How to Determine if a Caterpillar Is Male or Female ...

Freezing caterpillars. You can freeze the caterpillars to kill them also. Of course, this doesn't really work with plants. This method should be used to kill off any larvae that you happen to come across from prunings or manual removal. By tossing them into your freezer, they'll be frozen and killed.
