All actual adjustments must be done by a qualified service facility. ... the level-transit, be sure the telescope lock lever is in the closed position. Attach the instrument to the tripod securely, hand tight-

L6-20 / LT6-900 Owner's Guide

david white 8300 level transit The model 8300 Level Transit by David White is (in our opinion) the best level transit ever made, bar none. The LT8-300, the successor to the 8300, is still available, and is a good instrument, but doesn't quite match the ruggedness and quality of this earlier model.

David White LT 8300 Transit Level Review

The David White transit level is an optical instrument with a telescope and a built-in spirit level that's mounted on a tripod. It's mainly used for surveying and building, but it can also determine the relative position of lines and objects. A transit level is very precise.
