## Samsung Tv Calibration

While every new Samsung HDTV comes from the factory pre-calibrated with a default setting scheme, this scheme often isn't ideal for every room. Optimizing your settings to match your tastes or the lighting conditions in your room is fairly simple, albeit time consuming. There are numerous settings and options that configure not only lighting and color, but motion quality and other elements of the picture.

## How to Calibrate a Samsung HDTV | Techwalla

**Gamma:** Adjust the mid-range brightness of the picture. **RGB Only Mode:** Fine-tune the saturation and tint of the red, green, and blue color channels. **Color Space:** Configure color space

...

Purchased to calibrate a new Samsung 4k TV. The bottom-line is that this device produced amazing results on my TV and for that I give it 5 stars with some caveats. The process was really slow to get my fire stick and so I sat with the actual Calman device for 3 weeks and could not use it (I almost returned it but glad I did not).

For our calibration, we left the ' Auto Motion Plus Settings ' Off (more on that later), left ' Contrast Enhancer ' off and left unticked ' HDR+ Mode ' (this extrapolates HDR from SDR). In the ' Auto Motion Plus Settings ' tab, you can control the motion interpolation and the black frame insertion feature.
